NIGHT ROWING

Due to the dangers of rowing in the dark, crews and coxes need to be assessed to ensure they are safe on the water.
To arrange getting signed off for night rowing contact the Water Safety Advisor Sally Horrocks - wsa@leicester-rowing.co.uk

LIGHTS

Strong WHITE lights must be attached to the main hull of the boat stern and bow. Crews must check the condition of the lights at the end of each length and return to the boathouse immediately if any light is failing.

For full details regarding Navigation and Safety on the water refer to the Club Bye-Laws which apply to all LRC club members, University Affiliates and visitors
